

Made to last

Collection 2025

In the 2025 collection, we are proud to showcase carefully crafted designs from Danish designers, where quality serves as the foundation of every piece. By thoughtfully combining materials, shape, colours, and function, we create designs that are both timeless and relevant. True contemporary design is not just about following trends – it is about refining the best elements from the past and merging them with the innovations of the future to ensure durability, function and beauty.

At Design For The People, great design is at the heart of everything we do. Our close collaboration with talented and passionate designers has resulted in a range of new designs, alongside thoughtfully crafted additions to our beloved series. We introduce a wide range of lighting designs – from elegant new pendants to a smaller version of our beloved Glossy table lamp in three beautiful new colours.

This year also marks a special milestone for us: the 10-year anniversary of two of our best-selling designs, Strap and Artist. Over time, these pieces have become true icons in our collection. To honour their craftsmanship and impact over the past decade, we have added both new colours and a brand-new table lamp to these classic series.

We proudly present our 2025 collection.

*“I believe that instead
of making trendy
objects we should try
to make objects
that outlive trends”*

Asger Risborg Jakobsen

Studied architecture at The Royal
Danish Academy in Copenhagen

Based in Copenhagen, Denmark

Asger Risborg Jakobsen

Even as a child Asger Risborg Jakobsen found joy in creating all kinds of tools that he played with in the fields and trees around his home. Later Asger chose to make his passion his way of living by studying architecture at The Royal Danish Academy in Copenhagen. After three years he felt the joy of designing fading away and needed a change.

This time, he wanted to try something completely different. Asger started studying medicine and quickly became fascinated with the architecture of the human body. He gradually rediscovered his joy of designing and now combines working in both fields. In his creative work, Asger finds inspiration in the simultaneous complexity and simplicity of nature – and he is driven by creating designs that outlive trends and that can endure everyday use over many years.

“I find lighting fascinating. It is both a practical and essential tool that enables us to unfold our lives after the sun sets. At the same time, it is an aesthetic element that affects us and our surroundings. It transforms the appearance of materials and shapes. It changes the atmosphere. Everything changes with the light.”

With his strong focus on longevity in terms of durability, functionality and aesthetics, Asger Risborg Jakobsen is not subject to short-lived trends and tendencies.

“I believe that instead of making trendy objects we should try to make objects that outlive trends. The objects we make will of course always reflect our time and in this way, nothing is genuinely timeless, but I aim to create contemporary classics.”

“I wanted to create a lamp that combines the delicate qualities of rice paper lanterns with the durability to endure everyday use over many years”

Asger Risborg Jakobsen

Hill

Hill is a large, geometric lampshade that fills the room without blocking the view. Created by Danish designer Asger Risborg, Hill is light as a cloud, but sharp as a rock. A lamp that is both complex and simple while creating a very soft light that spreads into the room in a calm, uniform way.

Learn more about Hill on page 115

Anker Studio

Anker Studio

Jonas Birkebæk Poulsen educated
from Design School Kolding.

Based in Svendborg, Denmark

“I’m always searching for that little twist — the detail that turns a good product into something unforgettable.”

Jonas Birkebæk Poulsen

Anker Studio was founded by Danish designer Jonas Birkebæk Poulsen, who grew up with design from an early age, making it an integral part of his daily life. Growing up with a father who worked as a designer for LEGO, the idea of creating something from nothing was always close at hand. This early immersion made design feel second nature. It shaped not just his interest, but the way he sees the world today – all the details, possibilities, and stories waiting to be told.

For Jonas, great design always starts with something surprising, a tiny detail, something that sparks curiosity. It’s never just about function. Of course, a lamp should provide good light. But the real magic happens when form and function come together in a way that feels natural — and a little unexpected.

Contrary to what many might think, Jonas feels most creatively inspired when he has clear boundaries to work within. A defined framework doesn’t limit his creativity – it only sharpens it. When working with lighting, he’s especially drawn to the space between function and feeling.

“What I love about working with lighting is the wide spectrum between functionality and art. Some lamps are only functional, while some are more emotionally and aesthetically driven. The emotionally driven pieces become like a piece of art in the home. That contrast is what makes it exciting. There’s room for both.”

Take a look at our ambience video here

Trezzi

Trezzi, an elegant, portable table lamp was designed by Danish Anker Studio. Trezzi has a modern and elegant design with fluted glass that draws inspiration from Art Deco style. Dim the light in three steps using the touch button to create the perfect ambience. The lamp is easily charged with the included USB cable.

New

Latif

Latif is a modern and elegant pendant light designed by Danish Anker Studio. The shade is made of textured metal with brushed brass details. The round opal diffuser ensures a soft and glare-free light, making it perfect for above the dining table to create a pleasant light.

Learn more about Latif on page 116

Talli Floor - Brown 2420054018

*“What I love about working
with lighting is the wide
spectrum between
functionality and art.”*

Jonas Birkebæk Poulsen

Talli

Designed by Danish Anker Studio, Talli has a tall, cylindrical look that is both distinctive and light at the same time. The shade is made entirely from Tyvek – a material known for its durability and stunning light diffusion. The rounded metal base acts as a beautiful contrast to the lightweight shade.

Learn more about Talli on page 134

Spargo

Indirect light is the driving force behind the Spargo wall light by Danish Anker Studio. The large, slightly curved shade reflects the light onto the wall and diffuses it into the room. The shade is elegantly held by the brushed brass base.

Learn more about Spargo on page 130

Take a look at our ambience video here

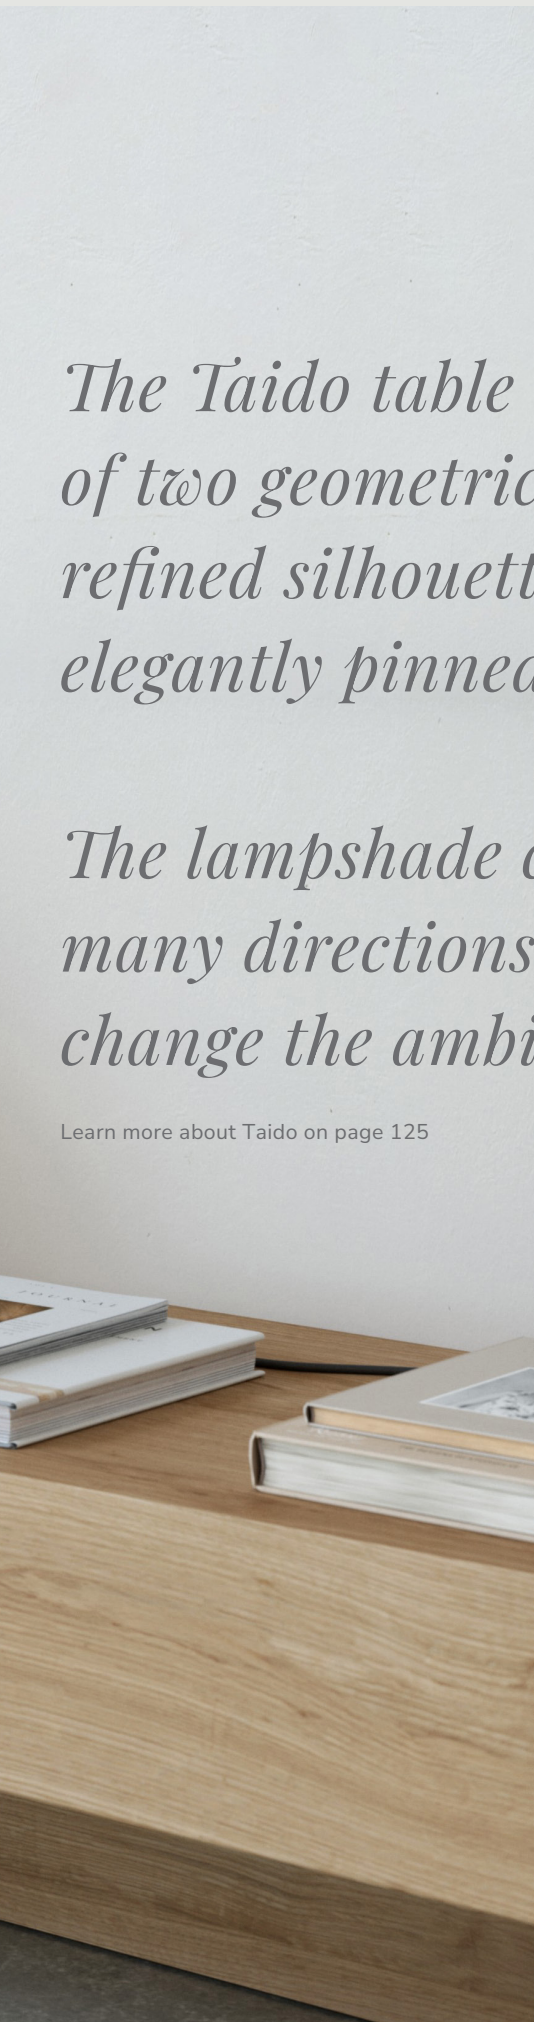

Taido Table, Brown 23203750.18

The Taido table lamp by Anker Studio consists of two geometric shapes that together create a refined silhouette. The angled, round shade is elegantly pinned on the conical base.

The lampshade can be adjusted in many directions, allowing you to change the ambience.

Learn more about Taido on page 125

Take a look at our ambience video here

Take a look at our ambience video here

Furiko

The Furiko wall light by Anker Studio has a simple and elegant design language. The light reflects backwards onto the beautiful spherical shade, creating a soft and indirect light. Furiko is perfect for the hallway or bedroom where a soft light is essential.

Learn more about Furiko on page 130

Versale

The Versale series by Anker Studio is the epitome of Scandinavian minimalism cut to the very core. A perfectly round shade with a uniform light surface only disturbed by the piercing frame. The whole series can easily create the perfect ambience anywhere you need a pleasant, glare-free light.

Learn more about Versale on page 108

“Some lamps are only functional, while some are more emotionally and aesthetically driven.

The emotionally driven pieces become like an art object in the home. That’s what makes the work fun.”

Jonas Birkebæk Poulsen

Rune Balle & Christian Bjørn

The duo has carried out a large number of creative design tasks for both national and international clients

Based in Copenhagen, Denmark

*“Quiet is better than loud.
We like to create designs
that are very simple.
Designs that people
feel safe about”*

Bjørn + Balle

The designers combine minimalistic Scandinavian design with international trends. It's about image creation and recognizability. The overall identity of the product is its form, function, details, structure and materials, which all comes together. A product never stands alone but is part of an environment where the story being told supports the design.

Bjørn + Balle have both carried out a large number of design tasks for both national and international clients at many different areas, such as product design, furniture design, interior design, identity programs and exhibitions, and together they have great success with lighting design.

Bjørn + Balle has delivered a wide range of innovative technical solutions for the industry, as well as beautifully designed products for the consumer market.

New

Aurelio

This elegant pendant by designers Bjørn + Balle has an organic and minimalistic design in rough metal with a grooved top in dark wood. Light shines softly through the opening on top of the shade, creating a beautiful effect. Perfect above the dining table or kitchen countertop.

Learn more about Aurelio on page 112

New

Take a look at our ambience video here

Kinto

The modern and minimalistic Kinto was designed by Bjørn + Balle. The cone-shaped shade is made from metal with an elegant dark wood top and burnished brass details. Light shines softly through the opening on top of the shade, creating a beautiful effect. Perfect above the dining table or kitchen countertop.

Learn more about Kinto on page 116

Strap 36, Light Grey 84343010

*New
material*

Strap

Designers Bjørn + Balle have created Strap by combining metal and high-quality leather for a light, Nordic aesthetic. The elegant strap adds warmth, balancing a classic and industrial look. Strap comes with two leather straps – one brown and one black – allowing you to choose the final look.

This year, Strap celebrates its 10th anniversary, and to mark the occasion, we have added a range of new, beautiful colours to the series.

Bønnelycke MDD

A Multi-Disciplinary Design company
with a desire to work constructively and innovatively

Based in Aarhus, Denmark

“Great design is giving people what they want, and a little bit more”

Bønnelycke MDD

Bønnelycke MDD was established in 1988. Driven by a nosurpressable urge and desire to work constructively and innovatively, Bønnelycke mdd started his career with the design of lamps, furniture and interior decorating.

Quickly, he became known as an unconventional architect with no whims and fancies. His ability to challenge and optimize the manufacturing process itself is to be found in Henrik’s original professional background as a toolmaker. “It could be fun” and “of course it can be done” – are phrases often used in his company.

From day one, the core of his work has been to create products simply because they are needed. Designs by Bønnelycke MDD grow out of a specific need or requirement expressed by the customer – and by the general public as such. This has resulted in a comprehensive portfolio of projects and designs allowing the company to slowly but steadily expand over the years.

MIB

The minimalistic MIB series is steeped in Nordic elegance and boasts excellent usability. MIB invites you to put a spotlight on life. The slender and adjustable lamp head emits a precise and directional light. MIB looks good alone, but also if you place more together and make a statement with light. Designed by Bønnelycke mdd.

Artist

With its contemporary design and minimalist form, the award-winning Artist by Danish designer Bønnelycke MDD has earned its place as a modern classic. True to its name, the design draws inspiration from the world of music, particularly the graceful curves of a drum kit cymbal.

This year, Artist celebrates its 10th anniversary, and to mark the occasion, we have added a range of new, beautiful colours to the series.

Charlotte Høncke

Charlotte Høncke

Holds a degree from Aarhus School
of Architecture in Industrial Design

Based in Aarhus, Denmark

Take a look at our ambience video here

“I like exploring new materials, shapes and techniques and I never choose the easy way out”

Charlotte Høncke has always had a great passion for design and knew from a very early age that she wanted to pursue a career in design or architecture. In 2002 she graduated from Aarhus School of Architecture in Industrial Design, and a few years later she chose to become self-employed working with design full time.

Charlotte finds inspiration everywhere she goes – from nature, architecture or travelling the world. New ideas often require new methods for designing and creating which sometimes forces her to explore new ways.

“I like exploring new materials, shapes and techniques and I never choose the easy way out. That sometimes causes challenges, both for me as a designer but also for the manufacturer. But exploring new methods is also what makes the job diverse and exciting.”

Lighting design is something that Charlotte Høncke finds particularly interesting because of its versatility and the need for balancing functionality with aesthetics.

“Besides having to provide the right, functional light, I also think lamps need to be beautiful when turned off. Lamps are one of the elements that bring most atmosphere into the interior, and I personally like to have many different types of lamps in my home to create just the light and atmosphere I want.”

Take a look at our ambience video here

Faye Portable

Danish Designer Charlotte Høncke has created Faye – a portable and rechargeable lamp in harmonic, geometric shapes. This small lamp is packed with both personality and functionality, making it ideal for a shelf or other narrow space that needs a dimmable, downward-facing light.

Learn more about Faye on page 123

Fabiola Table, Black/Brass 2220245003

Fabiola

The Fabiola table lamp by Danish designer Charlotte Høncke draws inspiration from vintage Italian design and effortlessly unites past classics with present modernity. The design is elegant and sculptural, underlined by the placement of the shade, which ensures a soft, indirect light. Brass details add a luxurious look and feel.

Learn more about Fabiola on page 87

Fabiola Pendant, Black/Brass 2220223003

Caché

With Caché, Danish designer Charlotte Hønlcke has created a table lamp with an intriguing and eye-catching design. The lamp is made from two perfectly round shades, united elegantly by a solid marble base. Caché creates an interesting and playful ambience where the light is reflected back and forth between the two shades.

Learn more about Caché on page 123

“To me, success is when my design brings joy in the everyday lives of people”

Maria Berntsen

Holds degrees from both
The Royal Danish Academy Art
and L'Ecole d'Architecture

Based in Copenhagen, Denmark

Maria Berntsen

With her own design studio in Copenhagen, Maria Berntsen has since 1992 focused on architecture and design. Maria Berntsen is a well-established name in the design industry and has over the years collaborated with a wide range of Danish and international companies, where her extensive experience has resulted in many successful designs.

“At the start of a new project, I look for an idea with nerve, functionality and identity. By modelling and visualizing, I test the idea, how it might be used, and its presence.

Good design communicates and establishes a dialogue with the receiver. Design is not just about functionality – it is as much about the emotional connection and impact. To me, success is when my design brings joy in the everyday lives of people”

”Glossy is my favourite lamp. I feel that it successfully balances form and a mix of materials. The entire construction and expression of the lamp is simple and timeless.

Maria Berntsen

Glossy Mini

Glossy is the epitome of tasteful and sophisticated design. Danish designer Maria Berntsen has created a “mini version” of the classic table lamp that oozes Nordic minimalism, and where exclusive materials like marble, brass and opal white glass all contribute to an incredibly elegant design.

Glossy takes its name from the shiny surface of the opal white glass, which lets a soft and pleasant light shine through.

Learn more about Glossy Mini on page 89

Studio Mauro//Lefèvre by Sofie Lefèvre

Sofie Lefèvre

Holds a degree in Innovation
Design from Royal College of Art

Based in Copenhagen, Denmark

Take a look at our ambience video here

“I generally like challenges. Challenges create a sense of suspension, even though I know that it’s almost always possible to find a solution – it’s really just a matter of time”

The road to becoming a designer has not been straight ahead for Sofie Lefèvre. She started studying medicine, but after a year changed her course and continued her education within the design field. Several years in London and a degree in Innovation Design from Royal College of Art gave her hands-on experience and the drive to pursue a career within design.

Working with lighting design comes naturally to Sofie. She understands and emphasizes the impact light has on our lives and is fascinated by the way light can change the interior: *“I find it very interesting working with atmospheres created by light. There are so many aspects where my inner child can be released, playing with angles, materials and openings to create the wanted reflection or diffusion of light.”*

Take a look at our ambience video here

Beau

Designed by Danish design studio Mavro/Lefèvre, the Beau pendant is based on the idea of extruding the silhouette of a lamp horizontally in space. Beau has a slim, minimalist design that looks beautiful above a dining table or in the kitchen. Comes with a replaceable bulb.

Learn more about Beau on page 114

Takai Table, Brown Marble 2320445018

Takai

The Takai series by Studio Mavro//Lefèvre by Sofie Lefèvre has a large fabric shade with a beautiful shape that invites you to look at it from many different angles. The combination of the flax linen shade and the burnished brass creates a very soft and warm design language.

Learn more about Takai on page 106

New

“The design of Navone is quite timeless, and I love how the suspension becomes an extension of the shape of the glass — two shapes in one harmonic interplay”

Sofie Lefèvre

Navone

Navone is designed by Danish design Studio Mavro//Lefèvre by Sofie Lefèvre. The overall shape of the shade is soft and round, yet the very subtle curved bottom adds a new interesting dimension that transforms the lamp into more than just a sphere. The brass details add a contemporary touch, underlining the suspended lightness of the lamp.

Learn more about Navone on page 117
